-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Quayle Action

1. This application is in condition for allowance except for the following formal matters:

Claim Objections

2. Claim 1 is objected to because of the following informalities: the phrase "the traversing said bar by said security bolt" (claim 1, lines 18-19) is grammatically incorrect. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 7-13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant's disclosure does not provide support for the limitation: "a first security chamber riser attached to a first security chamber" (claim 7, line 8).

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3611

6. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitations "the proximal interior portion" and "the distal interior portion" in lines 14 and 16. There is insufficient antecedent basis for this limitation in the claim.

Claim 7 recites the limitations "the proximal interior portion" and "the distal interior portion" in lines 15 and 17. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

7. Claims 1-6 would be allowable because the prior art fails to disclose a first security chamber attached to a second security chamber, wherein the first security chamber has a security pin orifice bored through at least one side and a security bolt orifice for insertion of a security bolt; the second security chamber has at least two security bolt orifices for the security bolt; a lock adapted to be inserted into the first security chamber with a lock body portion and a non linear shackle portion and a security bar having a security bolt orifice.

8. Claims 7-13 would be allowable because the prior art fails to disclose a security bar receiving member having top, side and bottom portions forming a second security chamber for insertion/removal of a security bar; a first security chamber having a security pin orifice bored through at least one side of the chamber for insertion of a

security pin and at least two security bolt orifices for insertion of a security bolt; a lock adapted to be inserted into the first security chamber with a lock body and a non linear shackle portion; the security bar having a security bolt orifice for traversal of the security bolt.

Conclusion

9. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
